## RADIAL OFF-THE-ROAD TIRES

Are Design, Engineered, and Serviced by our experienced USA Staff

### Tire Design Engineers

#### **Robert Ochsenhirt, Senior Design Engineer, Bias**

37 years with a Major Tire Manufacturer, Retired

- Manager OTR Tire Sales Engineering, Trained Field personnel and dealer personnel in the correct selection, application and use of OTR Tires wrote brochures, technical literature, and maintenance manuals.
- Manager of Contractor Sales & Service. Contracted with large mining and construction companies to place service personnel on specific jobs sites to inventory, mount/dismount all tires, ensure maximum performance of all tires, maintained second systems. Throughout the US and approximately 20 countries.
- Chief Design Engineer Bias OTR- Earthmover Tires. Tire Design Engineer Bias OTR-Earthmover Tires Factory Technical Service. Technical assistance for the production of OTR-Earthmover tires.

#### **Mike Cook, Senior Design Engineer, Radial**

40 years with a Major Tire Manufacturer, Retired

- Chief Design Engineer Radial OTR-Earthmover Tires. Led development of 37.00R57 RL-4H. Awarded 8 patents for Off-the Road radial tires.
- Special assignment with Tire Design Research division. Managed Aircraft Tire Programs. Managed OTR tire testing, OTR Tire Engineering division, radial tires. Engineered/Designed OTR-Earthmover radial tires OTR Tire Engineering division, bias tires. Engineered/Designed OTR-Earthmover bias tires and handled specifications for International Plants

### Tire Compounding Engineers

#### **Jerry Malin, Senior Compound Engineer/Chemical Engineer**

42 years with a Major Tire Manufacturer, Retired

- Extensive experience of compound development for every type of tire.
- Chief compounder for OTR tires with global responsibility for all types of tires.
- Many years of international experience. Worked in several plants around the globe and provided technical support and management to most plants in Asia, Latin America and North America.
- Extensive knowledge and experience of product performance.

### Tire Production Engineers

#### **David Lovell, Senior Production Engineer**

40 years with a Major Tire Manufacturer, Retired

- Director of Manufacturing and General Manager of manufacturing plant China.
- Director of Manufacturing of three Asia Pacific tire plants.
- Manufacturing Business center Manager radial passenger, bias & radial truck tires and OTR tires in USA tire plant: Responsible for manufacturing, production planning technology, quality assurance, engineering and logistics.
- Worked in every aspect in the tire production process beginning as production trainee, supervisor, shift foreman, radial plant startup team member, production planning manager, night superintendent, shift supervisor, and manufacturing business center auditor in one of the largest tire plants in the U.S.

#### **Jim Allen, Senior Production Engineer**

39 years with a Major Tire Manufacturer, Retired

- Senior Production Specialist.
- Managed start-up of international plants, trained work force and acted as plant Manager.
- Produced the first large size bias tires including:40.00x57, 67.00x51, 65.50x51, 45/65-45 and 36.00x51
- Managed start-up production for a radial OTR tire plant.
- Foreman, OTR Tire Division. Supervisor, OTR Tire Division. Trained in all areas of assembly process for Earthmover and OTR tires

## **Howard Hodges, Senior Facilities Planner OTR, MRT, Aircraft**

33 years with a Major Tire Manufacturer, Retired

- Manager Industrial Engineering at a OTR facility
- Senior Facilities Planner, OTR, MRT, Aircraft, Methods Planner, OTR, MRT, Aircraft Industrial Engineer, MRT, Aircraft.
- Manufacturing supervisor.

## **Sales/Marketing/Product Support Team**

## **Peter Ahumada, Senior Field Engineer, VP OTR Division**

35 years with a Major tire Manufacturer, Retired

- OTR Sales & Service for Central and South America & Caribbean, Regional Manager for Latin America Lived in Brazil. Responsible for sales & service for all OTR-Earthmover Tires.
